City Soldier Shows Ralston Raid Souvenir

By WILLIAM STEWART
SOMEWHERE IN ENGLAND, Oct. 10—(CP)—Col. J. Ralston, Canadian defence minister, yesterday visited two Canadian army hospitals, talking to men who were wounded at Dieppe and congratulating winners of decorations in that engagement.

Col. Ralston was accompanied by Brig. R. M. Linton, director of medical services at Canadian military headquarters, London, and Col. H. A. Dyer, the minister's military secretary.

While talking with Pvt. Alvin Hagard, a member of the South Saskatchewan regiment, in the St. Dunstons, Col. Ralston said: "I suppose you saw all the rest of the fellows helped by your Distinguished Conduct Medal?" "That's right—definitely," replied Hagard.

DISPLAYS SHRAPNEL

A doctor, pointing to Sgt. Doug Sanda, a member of a provincial company from Edmonton, said he had brought back from Dieppe "the biggest piece of shrapnel."

Sanda, displaying a great badge about his left arm, held up a fourth-inch piece of jagged metal.

"That was in my arm," he said. "By George, that's a big piece," exclaimed the minister. "You are going to be all right," he said.

"Pretty soon now," Sand replied.

Do It Now

A solid basis for post-war reconstruction is laid down in the three principles named by Prime Minister King in his address to the American Federation of Labor at Toronto.

The essential requirements, Mr. King stated, are that there shall be useful employment for all who are willing to work; that standards of living and housing shall be such as to ensure the health and happiness of the people; and that there shall be insurance against privation resulting from unemployment, accident, death of the breadwinner, illness and old age.

These were set out as being the minimum safeguards which the nation should provide for the individual. They are, it is to be taken, the basic principles upon which the plans of the Government for post-war readjustment are being drafted.

From these propositions there can surely be little dissent. They are self-proving. After the experience of the recent war, and in the light of wartime action, the depression showed the need of these safeguards, and the gigantic scale of wartime spending and activity has shown that they are practicable.

It is, past and present facts have shown, both necessary and possible that every citizen of Canada should have an opportunity at all times to earn an honest living; that he and his family shall be able to live on a proper standard of living; that he shall be protected against accident, destitution resulting from unemployment, old age, and old age.

The statement of the Prime Minister commits the Government to proceed to set up these safeguards. With these established, Canadians could then turn to the coming of peace without apprehension that it will usher in an era of unemployment and misery, following a post-war boom. And not only that, but with the pension, but with confidence that life in Canada in the years to come will be free of the fears which have haunted those who must depend for a living on the proceeds of regular employment.

This is the "new order" that is being planned for the people of this Dominion. An order in which human rights shall come first, and other considerations second. That is something worth working for and worth fighting for.

The time to institute this security program is now. There is no reason for delay. Every consideration is an argument for the instant delay. The program is general almost to the point of being universal, is the time to build up the funds to carry the scheme. The necessary legislation should be passed at the opening session of parliament, the machinery set up, and the program put "in being" as quickly as possible.

Thanksgiving

If there is one country in the world where people have particular cause to be thankful, that country is surely Canada. Our homeland has not been invaded nor is it imminently threatened. No spectre of hunger stalks the land, nor is a deadly epidemic has visited the Dominion.

Canadians sleep safely in their homes at night. They have an abundance of food and clothing and other necessities. Very few of them are without steady employment. Wages generally are sufficient to maintain a good standard of living, with some margin left over for the future possible needs. Our fields have yielded heavy crops, so heavy in many areas that harvesting and storing them are serious problems.

We have been able, and are now better able than ever before, to play a useful part in the struggle to put down the forces of tyranny and wrong and to make sure that freedom shall not perish from the earth. On land and sea, and in the air our fighting men have acquitted themselves with success and distinction. We have been privileged, and are still privileged, to send food and other necessities to our kinsfolk overseas, and to put weapons in the hands of those who fight for freedom on every front in the world.

The battle—our battle—is going on unfavorably. The outlook is definitely, and almost immeasurably, better than a year ago. The great turning point, it is our good fortune to have, has thrown its might into the fray and its forces and ours are comrades-in-arms overseas, on the Atlantic and in the Pacific. Signs are that a year from now victory and peace may be in sight.

What more, in the circumstances of today, could we in reason ask? Let us be thankful.

Closing In

Canadians of course were gratified to learn that our naval forces had a hand in establishing the new base in the Andromed group of the western Aleutians, and that our airmen are also co-operating with those of the United States. And gratified to learn from the same announcement that our seamen have been in action in Madagascar, in the Mediterranean, in the recent raid on Tobruk, as they were at Dieppe.

The new base in the Aleutians is within

in fighter range of the Japanese outpost at Kiska. The establishment perhaps had something to do with the decision of the enemy to evacuate Attu and Agattu. His position at Kiska will now be a heavy, more continuous, and more diversified attacks than were possible when it could be reached only by bombers from move distant bases, and by fighter-planes released from carriers.

But the Andromed base is also within bomber-range of the Kamohaka peninsula. At Attu, that is, the forbidden fighting ground, because Japan has not launched its long-threatened attack on Russia. Should it do so, the Russian bases in the peninsula would be open to United States and Canadian bombers, and from its airfields the heart of Japan is within striking distance. Tokyo will not overlook that fact.

Moscow has now somewhat less cause to worry about its eastern front, and Tojo has cause to reconsider the advisability of attacking Siberia. To do would open the Russian bases there to air forces—and naval forces—from Russia's Allies, and this is a possibility which the Japanese government, and the Japanese people, should be fought on its own home front.

Another "impossible" has been done, by that wizard United States constructionist Henry J. Kaiser. At a plant built for the purpose the first tank-carrying ship has been launched, on a schedule that calls for two of these 3,500-ton vessels to be turned out each week.

From these propositions there can surely be little dissent. They are self-proving. After the experience of the recent war, and in the light of wartime action, the depression showed the need of these safeguards, and the gigantic scale of wartime spending and activity has shown that they are practicable.

Rattletrap Battle Is Slated for Holiday Attraction.

FROM SCRAP HEAP TO MODEL "T" RACE MEET

Stan Reynolds, home on leave, decides to enter Tin Lizzie Derby. Drives into junk heap for "racer" . . .

Enlists friends to tune up motor—to get that soft, blended "putt" for smooth racing . . .

Leaves for smooth stretch to test engine, worn tires and speed against streamlined jalopy on left . . .

Tin Lizzie still holds together after years and years . . . needs "sweetening"—maybe tightening . . .

Even if Lizzies can "take it" . . . the drivers demand relaxation before going into the final trial spins . . .

Taking Lizzie home to the shop . . . to receive that "painted" look . . . and have a good rest before the big day—Monday afternoon . . .

AND THAT'S HOW A MOTOR "T" RACE ENTRY IS MADE

HOLIDAY EVENT

Nineteen Entries Accepted For "Tin Lizzie" Race Meet Here on Thanksgiving Day

With a fine entry list from Edmonton, Wetaskiwin and Calgary . . . the model "T" race meet was all set Saturday to get underway at the Fair Grounds on Thanksgiving Day.

Heads Committee

Gordon Owen, chairman of the committee in charge of ticket sales, who announces spectacular success in the advance sale of admission tickets! To avoid congestion at the fair grounds on Monday afternoon, get yours early. Special prizes will be awarded to lucky-number ticket holders, the award to be based on the advance sale only, on tickets purchased before Saturday midnight!

Germany Must Go Asserts Director Of Cadet League

OTTAWA, Oct. 10.—(CP)—Group Capt. D. C. M. Hume, director-general of the Air Cadet League of Canada, yesterday told an Ottawa service club he was firmly convinced that "after this war Germany must go," and said "it's no good trying to play ball with people who don't know the rules."

He said there was a tendency in certain circles to exhibit "sluggish sentimentality" concerning the post-war treatment of Germany, and suggested the theory that it took three generations to stabilize a national characteristic should be applied in reverse to the Germans. "The solution is first of all to weed 'em out, then breed 'em out," he said.

Likes Jeep

LOS ANGELES, Oct. 10.—(AP)—"I haven't said so much fun since I was 80," said Mrs. Louise B. Churchill today after riding in an army jeep piloted by Sgt. Fred Schall. The ride was in celebration of her 80th birthday. She took her first airplane ride when she was 80.

Large Ground Crew Needed Lizzie Races

Anyone suffering the illusion that staging a Model "T" race meet is just a case of lining up 20 cars and giving the signal "Go" will be enlightened by the story of the list of attendants necessary for Monday's holiday sports program.

Ready for emergencies, there will be ambulances. Fire trucks and wrecking trucks on duty, with trained men to give assistance immediately it is required. Unlike the horse races, where the tin lizzie races must have a judge for every car in each race.

A judge is assigned to a car, and holds a card marked off in small squares. As the car he watches passes him on each lap, a square is checked off, and he gives the signal when the car has finished in the race.

Each car will necessarily have mechanic and attendant to keep it in running condition, if possible, and the handful of derelicts gets underway for the afternoon!

Edmonton firms have generously added to the pleasure of spectators who will attend the Model "T" race meet on Monday. All tickets purchased before Saturday (yesterday) at Midnight will be numbered. On Thanksgiving Day, between races, two numbers will be drawn . . . the winners will receive respectively:

A \$100 credit note donated by the Hudson's Bay Company.

A \$25.00 credit note donated by the Walk-Rite Style Shoppe Limited.

Race programs, too, will be numbered (they can be purchased only out at the track). Prizes for lucky-program-numbers are:

A City's Toiletary Set—including powder, perfume, cologne, lipstick and rouge . . . donated by the Corner Drug Stores.

A hamper of products from the Sunland Biscuit Company.

Winnipeg Driver Found Not Guilty Of Manslaughter

WINNIPEG, Oct. 10.—(CP)—

Romeo Chabrouneau of Fannyville, Man., was acquitted by Manitoba court of King's Bench yesterday on a charge of manslaughter but was convicted on a charge of criminal negligence and sentenced to three weeks imprisonment. He faced the charge following the death of Benson Watson, five, in a traffic accident April 5 last.

Charge For Keys

BOSTON, Oct. 10.—(AP)—Boston hotels are charging \$1 for room keys—money back when key returned. The metal shrouds have made it impossible for hotels to get new keys.

Special Trams for Holiday Auto Race

With the co-operation of Edmonton's street railway system, race headquarters announced Saturday that arrangements have been completed to have extra street cars to transport race fans to the Exhibition Grounds on Monday afternoon for the Model "T" race meet.

It is urged upon motorists that a tremendous saving in gasoline and time-mileage can be achieved if families will either leave cars at home or park them at the fair grounds for an afternoon instead of pleasure-riding through the country.

Just as during Exhibition Week last summer there will be adequate accommodation on the street railway to and from all parts of the city during the holiday afternoon.

Paper in London Pays Tribute to Canadian Troops

LONDON, Oct. 10.—(CP)—The Daily Express, commenting on the latest arrival of troops from Canada, said today that the British public offers its "sympathy and admiration" to the Canadian forces.

"They have been in Great Britain since within a few months of the outbreak of war and their numbers have been constantly expanding," the newspaper said.

"They have had only one taste of action and that, at Desper where they suffered grievous losses which have been made up by fresh reinforcements. But they did not grumble or complain. The fighting qualities of the Canadians have been enhanced by this experience."

Wins By "Tail"

KANSAS CITY, Oct. 10.—(AP)—A horse on Mrs. Stevens' nearby farm won by a tail. The 1,100-pound animal fell through old plank into a 22-foot well. Neighbors, deputies sheriff and veterinarian Eugene Theiss pulled it to safety by means of ropes fastened to the horse's harness—and to its tail.

Safety Rules Are Employed Lizzie Derby

All drivers and sponsors have been instructed carefully as to rules and regulations which have been established to guard the safety of men racing the Tin Lizzie.

Here are some of the important points which must be strictly adhered to by entrants:

If the Model "T" is used, the coupe lines, the top must be removed to a point even with the bottom of the windshield, and back seat can be cut away from touring cars.

Wheels must be standard Model "T"—wire or wooden. Glass must be removed entirely, and it is advisable to remove fenders. Tire racks or any other projection beyond rear wheels must be removed.

All cars must be on the grounds for inspection at least 30 minutes before commencement of race meet.

AGE REQUIREMENT

All contestants must be 21 years of age, or over, non-professional race drivers. Professional race drivers, motor or dirt track drivers will not be allowed to compete in any event.

Each car may have two drivers and one mechanic. Only one man allowed in car while racing. Assistant driver and mechanic to remain in pit assigned to car, ready to assist his entry.

Cars may stop at pits as often as driver wishes for the purpose of repairs, water, changing of tires, or changing of drivers.

Flag signals:

Green: "Start; course is clear."

Yellow: "Caution; watch for cars ahead; get your car under control; hold your position."

Red: "Stop immediately; race is halted."

Checker: "You have one round to go."

Validity of Writs To Be Tested Here

Whether or not writs of execution and garnishee summonses issued by the Independent Order of Foresters against the Northern Irrigation District, legally attached bonds and money in the name of the Irrigation District at the Canadian Bank of Commerce, Lethbridge, will be determined in a supreme court action ordered by Mr. Justice W. A. Macdonald.

In an order issued in supreme court chambers by Mr. Justice Macdonald the trial of an issue is directed to determine whether two writs of execution issued by the Independent Order of Foresters on August 22, 1940, legally attached bonds of the province of Saskatchewan in a safety deposit box in the name of the Lethbridge Northern Irrigation District in the Canadian Bank of Commerce at Lethbridge, and whether they were legally seized by the sheriff of the Lethbridge judicial district.

ADDITIONAL ISSUES

Also an issue in the action will be whether, in the view of the provisions of the Irrigation Districts Act the objects and purposes of the creation of the district, and the nature of the plaintiff's claim in the act, the judgment of the plaintiff is recoverable, or the property of the district is eligible under the plaintiff's writs or under any writ of execution except as provided by the act.

To be decided also is the question whether two garnishee summonses issued in Edmonton, June 29, 1942, legally attached money to the credit of the Irrigation District in the Canadian Bank of Commerce at Lethbridge, and whether in any event such money are garnishable in the actions.

"The Boy Scout and Girl Guide movements are most valuable organizations for training boys and girls in good citizenship and equipping them for the task of rebuilding the world after the war," Sir Cyril Newall, governor general of New Zealand.

Field Glasses Theft Brings 6-Month Term

Theft of three pairs of field glasses in Calgary brought a sentence of six months at hard labor against Wilfred Bower, when he pleaded guilty to the charge in city police court before Magistrate A. I. Miller, K.C., Friday.

Bower's sentence is in conformity with a similar sentence he received two months ago on another theft charge.

Mike Spilka and Eva Nipitinski, boyie, Alta., each received suspended sentences of 12 months when they were found guilty of corrupting the morals of children by living as man and wife. They were ordered to separate.

SLAP BRINGS FINE

One slap on the face of Mary Scott cost Julia Shupac \$5 and costs, when she was found guilty of assault. The slapping was the culmination of an argument.

Fred Forth was fined \$10 and costs for hauling a calf in a truck with other animals without having the calf partitioned off in a separate compartment. He was charged with cruelty to the calf.

Ben Liebowitz was fined \$5 and costs for keeping his place of business open after six o'clock.

Red Deer Board of Trade Talks Housing Shortage in District

RED DEER—Executive of the Red Deer board of trade met this week to discuss the local housing situation, and it was agreed by those at the meeting that something should be done if at all possible to relieve the shortage of housing accommodation.

Since the start of the war housing has become quite a problem here. Establishment of the R.C.A.S.C. Training Centre at Red Deer and No. 34 Service Flying Training School of the R.A.F. at Peribald, a few miles south of the city, has resulted in a great demand for accommodation.

J. Barron, unit organizer, dealt

with the plan of organization within the unit, and J. Dillon spoke of the publicity and special features.

School hours in the Red Deer school division for the months from Nov. 1 to Feb. 28 will be from 10:30 a.m. to 12:30 p.m. and from 1:30 to 4:30 p.m. It has been decided by the divisional board... House-holders in Red Deer will not have to pay the usual monthly charge for garbage collection in October. The garbage collection service has accumulated a surplus and in line with the city's policy of providing

the service at cost, no charge will be made for October.

Miss B. Barrett, senior nurse at the Red Deer Health Unit, has gone to Calgary where she will be married. Prior to leaving she was the guest of honor at a number of gatherings and was the recipient of some lovely gifts... W. A. Mooney, who has been sanitary inspector for the Red Deer and Southern Health Units, leaves his post this month. He takes up work with the provincial department of agriculture as farm labor super-

visor with headquarters at Vermilion. The staff of the health unit presented him with a military brush set.

CORONATION—Members of the reserve army unit here visited the farm of William Glatier this week and stooked 110 acres... Sgt. David L. Culbert, R.C.A., stationed at Brandon, Man., was a visitor in town this week.

PEOPLE ARE SAYING

"Tell us what you want. We know that this war must be won. What matters money when life is at stake? What is mere self-denial compared to sacrifices of our men at Dieppe? We're ready for self-denial. We'll tighten our belts; we'll go without. We'll lend our money. We'll do everything to insure Victory. But tell us what we should do and let's get on with it."

Very well, then, you must **SAVE** and invest your savings in Victory Bonds.

What's your share of this Savings job? Well, the average Canadian would have to lend to Canada, to meet Canada's need, \$1 in every \$5 of income left after taxes and compulsory savings have been collected.

But the average may not fit your case.

Your own circumstances are distinctly your own. You may be able to do better both out of your current income and out of your accumulated savings in the bank—or you may not be able to reach the average. Your share of voluntary savings is every dollar you can possibly spare.

Up to now most of us who stay at home haven't suffered very much. We haven't had to practice much self-denial. On the contrary, most of us are earning and spending more money. Yet the price of this spending is being paid for by the blood and sacrifice of others.

We who stay at home must deny ourselves before we can claim to bear our share in this struggle. We must economize; go without; tighten our belts. We must save and buy Victory Bonds until we really feel the "pinch" of war's demands. We must learn that freedom must be paid for as well as fought for.

REYNOLDS Aids Canada's Victory Loan

Quentin Reynolds, famous war correspondent and author, will be in Toronto on October 11 to participate in his services as a member of the forthcoming Canadian Victory Loan. He is to be the featured commentator for the fourth in a series of radio dramatizations, "Nazis Ever On Canada's Coast," broadcast over a coast-to-coast network, Sunday, at 8:30 p.m., M.D.T., over C.F.C.A.

"Nazi Revenge" is the stirring theme for this radio presentation. The script is written under the real family of Sandy Smith in Fredericton, New Brunswick. Sandy Smith is one of Fredericton's best-known and best-liked citizens. He has two sons on active service. Albert, age 25, a Flight-Sergeant Observer in the R.C.A.F., has been missing after an operational flight over Germany in May, 1942.

Corporal Edward Smith, 23, is now with the No. 4 Canadian Army in Scotland, famed as the "Savdies" Fullerton's. His wife, Gladys, and his two sisters, Olive and Jean, live at home with their parents in Fredericton. They also have an adopted baby brother, Ronald Arthur, who is 11 months old.

BRINGS WAR CLOSER This Sunday's dramatization, Reynolds will give a vivid portrayal of what it is like to happen to a Canadian family, such as Sandy Smith's, if the Nazis occupied Canada. Like other broadcasts in the series, it brings the war closer to every Canadian home.

Quentin Reynolds is famous for his ability as a commentator. He has been heard frequently from European battlefronts and he played a leading role as a commentator in the picture "Eagle Squadron."

Reynolds has been under fire in Britain, Egypt, Libya, Russia and Iran. He has several books to his credit on this war, the first of which is the popular "Only The Stars Are Neutral," which is now running in The Bulletin in serial form.

Quentin Reynolds was a passenger on the plane carrying the Russian Ambassador Litvinov, which was forced down in China and he remained for several days. He is also one of the newspapermen who accompanied the Canadians in the raid on Dieppe. His stirring, vivid picture of the Dieppe raid and his tribute to Canadian men in combat has endeared him to Canadians from coast to coast.

Be sure to hear Quentin Reynolds in the fourth presentation of "Nazis Ever On Canada's Coast," Sunday, October 11, at 8:30 p.m. M.D.T.

The War Today

BY JOHN COLLINGWOOD READE

A small force of British Commandos, comprising ten officers and men, landed on the coast of the Channel Islands, which lie at a right angle formed by the British and the Normandy coasts of France. The trip is about seventy-five miles by water from Portland Bill, on the south coast of England. In reporting this raid, which the Germans had published anywhere, the British commandos described it as "one of many operations successfully and frequently carried out."

The small British force captured five German prisoners, who struggled frantically to escape, and four of them had to be shot. The fifth was brought back to Britain and held a tale of German methods which makes uncomfortable reading. Nine hundred men, British soldiers all, between the ages of 16 and 70, were conscripted from the island of Guernsey last week for service in the German slave labor corps.

It is expected that more than this number will be taken from the island of Jersey. Sark is a tiny island, but eleven men have been warned that they will be sent to Germany. Two of them have been conscripted to the German slave labor corps, and the others are to endure the appalling conditions which they anticipated. The Germans said that the British Commandos tied the hands of the prisoners and otherwise subjected them to humiliating treatment. They threatened to take reprisals on the prisoners captured at Jersey. Since

four of the prisoners were shot and the fifth is in British custody, it is likely that the Germans will have found it profitable to do so. But when they can no longer be of service they are just so much human waste, and the Nazis do not put much value on human life as such.

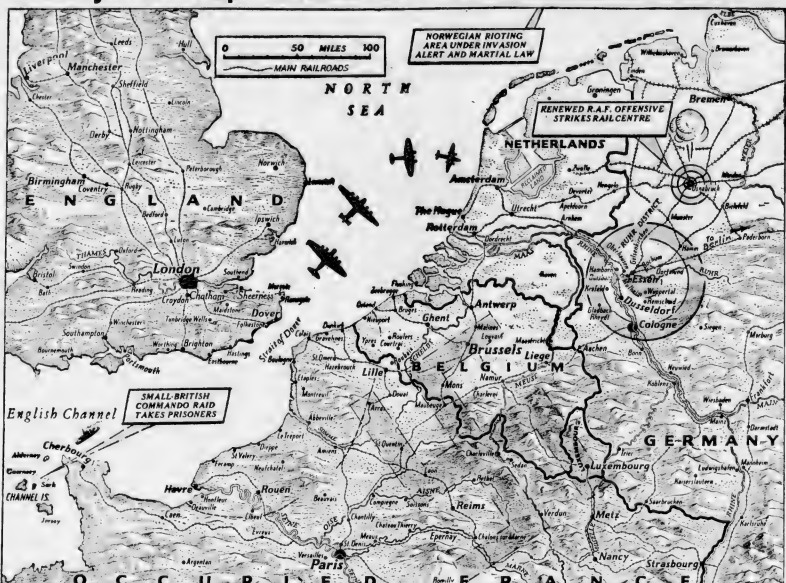

Replying to the German threat to take reprisals on the prisoners, the British War Office said that the British Government would have to consider its future action. The British mood now is that the action would be quite ruthless.

Apert altogether from the incidental dispute over the treatment of prisoners, the Commando raids are proving valuable. They represent an economical method of getting information, more by stealth than by force. One prisoner captured on each of a hundred raids directed at different points is just as valuable from the point of view of gathering information and examining clothing and equipment as a hundred prisoners captured in a large assault at one point and at a great sacrifice of life and prisoners lost to the enemy.

The Channel Islands offer interesting possibilities when considered in the light of a possible offensive against the French coast. Jersey and Guernsey in particular are given over mostly to pasture and market gardening, and presumably offer excellent facilities for the establishment of air bases. Fighter aircraft based on Jersey could operate continually and conveniently over the mouth of the Loire in the Bay of Biscay, and the French coast south of Cape Finisterre which are not so well fortified as the Channel coast of France.

CHANNEL ISLANDS IMPORTANT
The question is whether the Channel Islands would be any easier to capture than footholds on the

By Jane Becker

Following a rather exciting four weeks, things at Varsity high have settled down into a routine which is less exciting than before. Nearly all the students' union fees have been paid and cards issued to members. This enabled the executive to commence activities.

Another dance took place on Friday, which was followed by a meeting and practice session of the dancing club.

Under the supervision of Miss Simpson and Miss Chalmers, the hiking club had its first two outings on Friday and Saturday nights at "the Pines".

On the academic side a new group of twelve teachers, two in each room, from the high school have arrived and are ready to begin work for this month.

VICTORIA HIGH SCHOOL

Much of the excitement at Victoria high was due to the presidential election. The candidates, Norman Brown, Bill Mayson and Jack Towser, spoke at the campaign he held on Tuesday afternoon. The inter-grade field and track scheduled for Friday afternoon also made a record for regular routine here. Some fine performances were given in the various events.

The "prep" H and dance was also held Tuesday. Guests of honor were Miss Towser, Miss Mayson, D.K.O., Set, Jerry Miller and Don Hennessey. Jerry Miller was chosen the Diaper race in which he served in the umbrella lifting squad.

Monday, the fifth, the basketball team played a game with Westview. Hugh Buchanan not only scored a touchdown but stayed all through the game.

The juniors met Victoria-School, V.C. 22-20.

The basketball club held its first annual meeting on the 10th of the month. Almost 300 members took part in a meeting which was very successful.

Miss N. Holmgren, with the help of a few girls, has organized a "Hawke, Muriel Strickland and Anna-Elle" athletic team.

Miss Holmgren, secretary, and Miss J. Robertson, a. Ispiken and Miss J. Brown, were coasts of the club.

"Chess and checkers" held a meeting Wednesday. The first prize was claimed by president and Gwen McGregor, secretary.

Lewis G. Howard, Selkirk, Man., will attend, as will A. E. Duane, Lethbridge, second vice-president of the dominion command.

The convention will be held all day Sunday and Monday at the Macdonald hotel. At 8 p.m. Monday the delegates will hold a smoker in the Army and Navy Veterans' club room, 1027 Jasper avenue, with the national president as the guest of honor.

Delegates from Lethbridge and Calgary, the other two units in Alberta, as well as a large membership from Edmonton, will sit in on the discussion and attend the smoker Monday evening.

Officers of the provincial command are: J. F. Wormald, Calgary, president; H. D. Lynn, Edmonton, first vice-president; S. A. Tucker, Calgary, honorary secretary; Treasurer, F. Miles, Lethbridge; S. Baldwin, Calgary; T. Hollands, Edmonton; and L. Leigh, Lethbridge, members of the executive.

SUSTAINED ACTIVITY

During its 21 years of existence the Edmonton Unit of the Army and Navy Veterans of Canada has enjoyed a sustained interest in activity and service for the men of the armed forces, past and present.

Since the outbreak of the present war the Edmonton unit has taken upon itself to provide every war veteran, and all sons of war veterans now serving overseas, with 200 cigarettes each, and 200 letters. Money for the large supply of cigarettes is obtained out of the activities of the Edmonton organization which maintains a series of club activities all year round to raise the required funds.

HELPS HERE

Besides this direct help to veterans now overseas and their sons, the Edmonton unit continues to contribute generously toward welfare activities in the city and surrounding communities.

Heading the Edmonton unit for the second year in succession is President H. D. Lynn, whose second term is being climaxed with the holding of the provincial convention.

Mr. Lynn, enlisted in World War I in the Royal Navy on Aug. 17, 1914, and was discharged in January 1919.

Since his discharge he has taken at all times an active interest in the welfare of war veterans, and has served on the city unit executive on numerous occasions. He has been its president since 1930 and also vice-president of the provincial command.

VOICE OF THE GUNS

G. N. Wallis, who also saw service in the last war from 1914 to 1919, is first vice-president of the Edmonton unit. He served in the Royal Marine Artillery, and the Royal Field Artillery.

Second vice-president of the Edmonton unit is the congenial turnkey at the city station, Charles Humsted, who enlisted in England with the Coldstream Guards in February 1905. He saw service in South Africa with the Second Wiltshire Battalion and in Europe with the Canadian Engineers in 1916. He is now serving with the 2nd (Reserve) Battalion, Edmonton Regiment.

BUSY MAN

Long History Stands Behind Veterans' Club

The Army and Navy Veterans of Canada have a history running back over a century, and again in the midst of war the members are again at the forefront in many types of activities.

They are active in supporting the cause of the returned men in the present struggle. The dominion headquarters, located at the Central Chambers at Ottawa, has been engaged in working toward the betterment of systems for returned men and has offered numerous suggestions on constructive legislation directed toward the welfare of servicemen of past wars and the present conflict.

Instituted in 1841, the Dominion Command ever since has been actively engaged in working toward the welfare of those who served Canada in war.

The Dominion Command has a Provincial Command in seven provinces and New Brunswick. George Lane, Regina, Sask., is the only two province man re-elected.

Getting Around

Continued from Page Thirteen

This reconstruction program is an integral part of the new era of universal prosperity that is to follow victory in the present struggle.

These things will, of course, be done, and they are praiseworthy of themselves. But to hail such activity as a solution for them, as yet untested, and undeviating problem of unemployment, is a most dangerous and foolish thing.

Practically every man and woman in the United States and Canada is now engaged in some form of activity solely because the greatest physical conflict in the history of man. That the problems of unemployment, of relief, of want and insecurity have become as a result of the present thriving activity, would be accepted only by the most foolish thinkers.

And that a post-war period of

reconstruction, such as rebuilding devastated Europe, Asia and possibly America, is a solution to the same problem, is also just as foolish an assumption.

Both the industrial boom incident in the war and whatever reconstruction boom may follow after the war has been won are simply capitalizations of calamity. To build a new order of economic security and well-being on such a basis will be impossible.

If the sole hope of humanity for prosperity and economic security rests on the diabolical

basis of terrible, devastating war every few years to consume the products of our industrial plants, followed by short, dubious periods, when the devastation is being repaired, then we doubt if our so-called civilization is worth the efforts to keep it operating.

Surely any plan of economic security for the post-war world must have more intrinsic permanence to it than a plan which recognizes this temporary and misadventure of clearing away the wreckage as an integral part.

First Canadian Paratroopers Win Wings at Great U.S. Training Centre Instructors For New Army Unit Finish Course in Latest Type of Warfare

These close-ups of some typical members of the group of instructors who recently completed their course at the big U.S. Army school at Fort Benning, Georgia, give

a good illustration of the rugged kind of fighting men who have been selected to form the nucleus of the first Canadian paratroop unit. This group will serve as

instructors at the paratroop training school being set up at Camp Shilo in Manitoba. From left to right they are: Lt. T. A. R. Brier, St. Johns, P.Q.; Cpl. N. R. Chapman,

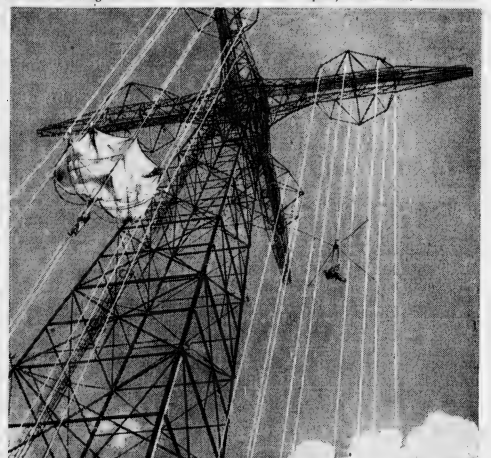

Vancouver, B.C.; Sgt. H. R. Bowley, Yarmouth, N.S.; Sgt.-Major A. T. Clifton, Ottawa; Cpl. C. W. Shaddock, Ingersoll, Ont.; Capt. H. A. Fauquier, brother of R.C.A.F. ace.

Maybe the jump master is telling them the old one about sending their chutes back if they don't work or maybe he's got a new one. Anyway, he seems to be

pepping the boys up as they tensely await order to jump. Picture was made by Photographer Harry Rowed while in flight high above the Fort Benning School.

Training is tough. Class is shown watching jiu-jitsu demonstration. "If you have to break his arm, break it. We'll fix him in the hospital," advised one instructor.

Next stop terra firma. Captain H. A. Fauquier, Ottawa, brother of famed R.C.A.F. ace Johnny Fauquier, steps out into space from the big transport plane as the jump master signals with pat on leg. Note special release cord fixed to plane.

Paratroopers took their initial training on this tower. Student at left will descend when his chute has been hauled to the top. Man dangling at right has dropped about 20 feet, toughening himself to the shock of an opening parachute.

Tumbling down from the blue expanse of the sky these Canadian paratroopers are the vanguard of many more to come. Their band numbers only the strong and brave.

Paratroops get plenty of training on the ground. Photo shows an American instructor teaching Lt. T. A. R. Brier (right) how to pack his parachute, a delicate operation.

Canadian paratroopers climb aboard a big transport at Fort Benning, Ga., on their way "upstairs" to try their first actual jump. Five are required before

wings are awarded. Most of the group had never been up in an airplane before making their jumps. Even veterans admit phase pictured here is a shaky one.
